Decatur police welcomes 2 new members to the force

By BOB SHRAULA Decatur Daily Democrat

One of Decatur’s newest police officers has lived in Bluffton much of his life, but he is pleased to be working in Decatur, where he calls a “welcoming community.”

Andrew Elwell was introduced to Decatur City Council at its latest meeting by Police Chief Leonard Corral Jr. His first day with the local department was June 17. Another new officer, Eric Mitchell, was sworn in July 10 and will begin his duties at the end of the month.

Elwell, 24, told council, “I’ve been in law enforcement for about five years. I’ve been in different positions. Right now, I’m here to be a part of the community.”

“He’s been doing an excellent job,” Corral told council. “This is the type of young officer Decatur should want to have on the force in the near future.”

Elwell and his wife, Emma, have a 5-month-old son.

“I’ve been doing an excellent job; he’s a very energetic guy,” Corral told council. “This is the type of young officer Decatur should want to have on the force in the near future.”

NEW LAW PROTECTS HOOSIERS' USE OF GUNS IN SELF-DEFENSE

INDIANAPOLIS — Gun rights advocates celebrated the passing of a new law, called House Bill 1284, which adds a justified use of force to the state's definition of legal firearms. The move was welcomed by Sigourney Wilson, a justified use of force advocate, who urged Hoosiers to protect their rights to firearms.

"I drafted legislation to protect Hoosiers' rights to firearms. The bill was passed by the Indiana General Assembly, as he has in the past. The action could save lives in active shooter situations."

Lucas said such a law is a step towards ensuring that teachers are properly trained to handle such situations.

"This move was a small but significant step towards ensuring that teachers are properly trained to handle these situations,"

Lucas said. He also thanked Dugan for his efforts in supporting the legislation.

"I want to thank Dan for his generous donation, as well as the support of the Adams County Commissioners, who have said this allows for more resources for retaining teachers.

"The Adams County Commissioners have been very supportive of this initiative, and I want to thank them for their continued support," Lucas said.

He is respectfully romantic, so he hasn’t pushed me too hard yet. I think he would like to talk about it, but I just feel like I will respect me if I say so by myself. I want him to know what I need. I&M warns against scammer activity aimed at customers

Scammers impersonating Indiana Michigan Power representatives are using tactics custom-tailored to attract customers.

These scams are not unique to I&M—they have been reported across the U.S. targeting customers like you.

Although the scams may vary, they generally follow the same pattern:

Customers receive calls from callers falsely identifying themselves as I&M representatives.

The caller claims the customer is late paying their bill, and their power will be disconnected soon—perhaps later that day—if the payment isn’t made immediately.

Many scammers “spoof” the telephone number to appear as if they are calling from the customer operations center or by calling the Customer Operations Center or by directly from the employee’s phone number.

In some cases, it may appear to be an authentic I&M phone number.

Customers are usually instructed to call a different phone number to arrange payment.

The scammers may seek personal credit card or bank account information from the customers to buy a debit card and provide the debit card number.

Our customers should know I&M employs a specific telephone number for payment. Does I&M disconnect service without notice?

Anyone receiving such calls should hang up and then call the Customer Operations Center at 800-351-4634 to report the scam.

I&M warns customers not to be misled by calling the Customer Operations Center or by calling any number other than the announced I&M number. Scammers may try to dupe customers by using legitimate, easily recognizable phone numbers.

I&M warns to be wary of calls that ask customers to pay their bill by phone or by sending a money order or gift card.

Scammers may demand payment by calling the Customer Operations Center or by calling the number that appears to be the customer operations center.
